

[illegible]

A scatter plot on a grid with a light gray background and a darker gray border. The grid consists of 10 major divisions horizontally and 10 major divisions vertically. Points are plotted as small black dots. There are several distinct clusters and patterns: 1. A vertical cluster of about 15 points in the upper-left quadrant. 2. A diagonal cluster of about 10 points in the upper-middle quadrant. 3. A vertical cluster of about 15 points in the upper-right quadrant. 4. A diagonal cluster of about 10 points in the middle-right quadrant. 5. A vertical cluster of about 10 points in the lower-left quadrant. 6. A diagonal cluster of about 10 points in the lower-middle quadrant. 7. A vertical cluster of about 10 points in the lower-right quadrant. 8. A small cluster of about 5 points in the center. 9. A small cluster of about 5 points on the left edge. 10. A small cluster of about 5 points on the right edge. The points are distributed across the grid, with some clusters being more dense than others.
